The Institutional Strategic/ Perspective Plan

As a part of the quality enhancement and sustenance initiative, Kharupetia College has developed its institutional Strategic/ perspective plan. The IQAC of the college acts the steering body which is entrusted with the task of preparation of the institution's strategic and perspective plans. The IQAC prepares an annual action plan every year covering different areas which require quality improvement such as curricular, teaching-learning and evaluation, infrastructural, research, renovation, extension, students support and progression, governance/management and best practices. The perspective plans are prepared keeping in mind the vision and mission of the institution. The IQAC coordinator actively coordinates with the Principal in the policy making process. Periodic review meetings are held to take stock of the implementation of the annual action plans round the year.

The college has got a Master Plan of the College prepared by an approved architect. Necessary constructions and expansions of infrastructural facilities etc are carried out as per the Master Plan of the college. Various support facilities are put in place for successful implementation of the institutional strategic/perspective plan.

Despite limited resources at its disposal, the college has been able to augment its physical infrastructure with funds received from different sources.

The Governing Body of the college is constituted with eminent academicians to carry forward the institutional vision of imparting quality education. The Governing Body being the apex body at the institutional level provides all kinds of logistic supports in preparation and implementation of the institutional strategic/ perspective plan.

The college authority follows a policy of transparency in all areas of management like academic, administrative and governance. Timely steps are taken for introducing new courses and programmes based on need and relevance. The CBCS system has been introduced in the college as a part of the policy of academic expansion and flexibility. Emphasis is given on co-curricular activities for which necessary facilities are provided from time to time. Creation and enhancement of ICT facilities has been one of the topmost priorities of the institutional strategic/ perspective plan.
