A Brief Report

Awareness programme on the topic - Population Control in rural areas in Bologarah on 12/05/2023. The Resource Person on this programme is Prof. Abdul Aziz - HOD. Commerce. He told population control in rural areas is a multifaceted issue that requires comprehensive strategies to address. Rural regions often face unique challenges regarding population growth, including limited access to healthcare, education and economic opportunities. Implementing effective population control measures in these areas is crucial for sustainable development, environmental conservation and improving living standards.

Population Control in rural areas requires a holistic approach that combines access to family planning services, education, economic empowerment and cultural sensitization. By addressing the underlying factors driving population growth, governments and organisations can promote sustainable development and improve the well-being of rural communities.

Report on Awareness Programme

An Awareness Programme on "Students Dropout in Rural Areas"

is organized by Extension Education Cell, Kharpetia College on

13/05/2023 at the village of Bologarah. Paclim Chuba at

2:00 P.M. The Resource person of this programme is Dr. Jakir Hussain Chondhury, Asstt. Prof.

Department of Philosophy, Kharpetia College. He delivered his

speech on the various causes

of dropout students in rural

areas. The high rate of

student dropout in rural areas.

It's a complex issue with far-

reaching consequences. Limited

access to quality education, Econo-

mic pressures forcing children

into labour and lack of infrastr-

ucture all contribute to this

alarming trend. Each dropout

represents not just a lost

opportunity for that individual

but a setback for the entire

community's development. We

must advocate for better resources,

improved facilities, and targeted

interventions to ensure every

child, regardless of their geographi-

cal location, has the chance

to fulfill their potential through

education. Our future depends

on it.

Thank you,

I. Abdul Rahman - Co-ordinator of Awareness Programme. arrived at 1:00 P.M at Bolagayat Pachion Suba. I organised a seminar on use of pesticides and impact of pesticides on human health. and what are harmful effects of pesticides. as well as effects of pesticides on nature.

"People who are both directly and indirectly exposed to pesticides may suffer acute toxic effects, including suicide attempts, mass poisoning from contaminated food, chemical accidents in the industry. Human exposure to chemical pesticides is linked to chronic illness such as cancer and heart, respiratory and neurological diseases.

Pesticides can contaminate soil, water, turf and other vegetation. and what are the personal safety :- Avoid splashing, spilling, spray drift and contamination of clothing and so on.

As I Coordinator of Awareness Programme I arranged a meeting at NIZ-Kharupetia, Dantary Assam. As I delivered a lecture on Drinking water and disease among the participants at 2:00 P.M on 15-05-23. we know that Waterborne Diseases that can be prevented by Consuming clean water. With so many people getting effected by Contaminated water, we need to be extra Careful about the water we drink at home and even when on the go. Drinking unclean or Contaminated water is the major Cause of several waterborne diseases. Most waterborne diseases can be prevented by switching to a water filter rather than relying on regular, untreated water sources.

Common waterborne Diseases are;

- i) Diarrhea. ii) Cholera iii) Hepatitis A iv) Typhoid fever v) Malaria.

Ways to prevent diseases due to Contaminated water and food.

- * Be careful to maintain hygiene, wash your hand frequently
- * While travelling, ensure that you are drinking clean water. You can carry your own drinking water that is purified by a water filter.
- * Try to consume fresh, home cooked food. Avoid street food items which might have been made using polluted water.

and
So on.

The Resource Person of the

Programme is Siddhar Anowarul Islam
HOD, Hindi Kharupetia College
on 15/5/2023. He speech that
every child forced into labour represent
a violation of their basic rights
and denies them the chance to
receive an education and pursue
their dreams. As a society, we
must unite to eradicate this
scourge, implementing strict laws,
providing support for families in
need and fostering an environment
where every child can thrive free
from exploitation.

We arrived at Bolugorah ~~at~~ ^{on} 16-05-23.
at 11:00 a.m. I delivered a lecture on
Adverse effects of pesticides in society.

Pesticides ~~are~~ have significant adverse effects on
human health such as Carcinogenesis, immuno
toxicity, birth defects, neurological toxicity and
endocrine disruption. Therefore it is very
important to monitor pesticides in fruits and
vegetable and to assess if they cause ~~a~~ a
risk to human health.

and what are the adverse effects of pesticides,

Tonic effects by pesticides exposure
can range from mild symptoms, like minor
skin irritation or other allergic symptoms, to
more severe symptoms, like strong headache,
dizziness or nausea.

Pesticides are potentially toxic to humans.

There are some chemical pesticides are,

1) Metoldehyde, Boric acid, Glyphosate,
Acaphate, Deet, Propoxum, Diazinon, DDT,
Malathion, Dursban etc.

Pesticides are involved in a wide range of
organic ~~micro~~ micro pollutants that have negative
environment effects.

Brief Report.

Awareness Programme is held on Bologaran, Pub Chuba on 16/05/2023 is organized by Extension Education Cell, Kharupetta College. The speaker of this programme Dr. J. H. Choudhary Co-ordinator Extension Education Cell, Kharupetta College. He delivered his speech on cleanliness is a fundamental aspect of a healthy life. It encompasses both our personal hygiene and the tidiness of our surroundings. Keeping ourselves clean, from regular hand washing to daily showers, helps prevent the spread of diseases and keeps us feeling fresh and happy. It leads a joyful life because it prevents us from various diseases. The good habits that a person can have, including wearing clean clothes, washing hands regularly, bathing etc. are part of cleanliness.

I, Abdul Rahman. Co-ordinator of Awareness programme arrange a programme on 27-01-22 at 1:00 P.M. at Bologara Pachim Suba by organized by Eco-club, Kharupetia College, Kharupetia, Darrang (Assam)

I expressest the various benefit of tree plantation among the people of Bologara Pachim Suba. that "trees give off oxygen that we need to breathe. Trees reduce the amount of storm water runoff, which reduces erosion and pollution in our waterways and may reduce the effects of flooding. Many species of wildlife depend on trees for habitat. Trees provide food, protection and homes for many birds and animals.

I also expressest among the people that "As trees grow, they help stop climate change by removing carbon-di-oxide from the air, storing carbon in the trees and soil and releasing oxygen into the atmosphere.

- i) Trees clean the Air,
- ii) Reduces the Green house gas.
- iii) Reduce Soil Erosion
- iv) protect the Ozone layer
- v) Prevent water pollution
- vi) Conserve Energy
- vii) Save water
- ix) provide Habitat.

Co-ordinator
ECO CLUB

Report on the programme

An Awareness Programme was held on 22/02/2022 in the topic of - Child Marriage and held in Nadirmukh village. The Resource Persons were Prof. Abdul Busskar Ahmed, Andur Rahman and Abdul Natin, all are the faculty members of Kharupetia College. This programme is organized by the extension education cell & IQAC, Kharupetia College. The Resource Persons delivered the negative impact of child marriage. Day by Day child marriage rate is going to be increased. They pointed out the causes of child marriage and its effect on the society as well as the family. Lack of education and tradition and superstitions are the main causes of child marriage. The programme is successful and very fruitful to the villagers.

A Brief Report

An awareness programme is held on 22/4/2022 in the village Bologa Panchubra. It is organized by the extension education cell & IQAC, Kharupetta College. The Resource person of this programme is Anil Singh, HOD, Commerce, Kharupetta. He focuses cleanliness, health and hygiene remain pivotal in rural areas, directly impacting community well-being. In these regions, awareness programs are crucial, focusing on proper waste disposal, clean water access and personal hygiene practices. Health camps play a vital role, offering guidance on disease prevention and sanitation methods. Implementing sustainable solutions like community-led sanitation initiatives and regular health camps can significantly improve conditions. Ongoing efforts in education & infrastructure development are pivotal for sustainable improvement in cleanliness, health & hygiene.

We Organised a Awareness programme on Adverse effects of pesticides in the Society by Eco-club under IQAC Kharupetia College at NIZ-Kharupetia on 24/04/22 at 1:00 P.M.

I As I Co-ordinator of Awareness programme expressed various ^{Adverse} effects of pesticides in the Society, that pesticides have been linked with human health hazards from short term impacts such as headaches and nausea to chronic impacts like cancer, reproductive harm. I expressed the various examples of acute health effects including stinging eyes, rashes, blisters, blindness, nausea, dizziness, diarrhea and death. The Impact on environment by pesticides ~~are~~ can contaminate soil, water, turf, and other vegetation. I also expressed among the people about the advantages and disadvantages of pesticides, which higher yield of crops, ~~to~~ longer profit for farmers and cheaper food for consumers.

A Brief Report

An awareness programme is held on 12/05/2022 organized by extension education cell & IQAC Kharupetta College. One Resource Person is

He delivered that Population Control is a critical global concern for sustainable development. Various strategies are employed, including education on family planning, access to contraceptives and promoting smaller family size. Government policies such as incentives for small families and awareness campaigns, play key roles. Addressing population growth involves a multi-faceted approach, considering social, economic and environmental impacts. Challenges include cultural beliefs, limited access to services and political resistance. Collaborative efforts between governments, NGOs and communities are essential for effective population control strategies, ensuring a brighter future for generation to come.

A Brief Report

An Awareness programme organised by the Extension Education cell & IQAC, Kharupetia College on 13/05/2022. The Resource person in this program is.

He focuses child labour, a pressing global issue with profound impacts on society. It deprives children of their childhood, education and opportunities for a better future. Furthermore, child labour undermines education, hindering a nation's potential for growth & development. In societies where child labor is prevalent, there's a ripple effect on the economy as it suppresses wages and perpetuates a cycle of poverty. Children are vulnerable to exploitation, trafficking, and hazardous working conditions, endangering their well-being.

Report

Today 21-10-2019 Darrang district Disaster Management Authority with the active cooperation of NSS volunteers arranged a programme at our Nizkharupetia College on "Disaster Preparedness Mock Drill programme". In this programme about 116 numbers of NSS volunteers and general students along with Teachers are actively present. And the Programme was very interesting and benefited for student. Students are asking such type of programmes should be organised at our institution in near future.

Awareness Programme of Health Care Cell

Venue : Nadimukh

Dated : 14.03.2020

AGENDA - I. Awareness Programme on Covid-19

AGENDA

AGENDA

An awareness Programme on health care was organized by the Health Care Cell, Kharupetia College with local in collaboration with the local community Nadimukh on dated 14.3.2020, wherein 70 (seventy) persons of the locality including teachers had participated in this Programme. This programme has been conducted by the teachers of the college and speech was delivered by A. Rahman (Associate Professor, Deptt of Maths), Dr. Nur Jaman, Associate Professor, Deptt of Arabic and Jahida Sultana, Associate Professor, Deptt of Education. The people of the area has been well-sensitized and provided idea to prevent themselves from on-going covid-19 pandemic. Use of different types of preventive items has been demonstrated in front of the common people so that they can use the item in proper way. The community of the area had a positive response on this programme. This Programme was very much fruitful. It helped the common people of the area to get away from the Covid-19.

9. Abdulla Rahman, as discussed in a brief summary of Conservation biodiversity. That the Conservation of biodiversity involves protecting and managing natural resources to ensure the survival of diverse species, Ecosystem and genetic variations. I aim to preserve the ecological balance, enhance the natural heritage future generations strategies include establishing protected areas, restoring degraded habitats, enforcing wildlife protection laws and etc.

Biodiversity Conservation is vital for several reasons as such as

- i) Ecological Balance.
- ii) Ecosystem Services.
- iii) Genetic Resources.
- iv) Cultural and Aesthetic Value.
- v) Economic Benefits.

Key Strategies for Conservation

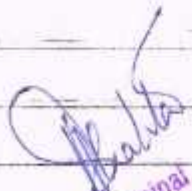

- (i) Protected Areas: Establishing national parks, wildlife reserves and marine protected areas to safeguard critical habitats and species.
- (ii) Habitat Restoration
- (iii) Sustainable practices.
- (iv) Legislations and policies.
- (v) Community Engagement.
- (vi) Research and Monitoring
- (vii) Education & Awareness

Principal
Kharupetia College

The outcome of awareness programs on the conservation of biodiversity can be quite impactful and multifaceted. Key outcomes are as below.

- (i) Increased knowledge and understanding among the people.
- (ii) Behavioral changes:- This program can encourage the people to adopt more sustainable practices in their daily lives.
- (iii) Community Engagement:- These programs often foster a sense of community and collective responsibility.
- (iv) Policy support.
- (v) Positive Environmental impact.
- (vi) Educational impact.
- (vii) Enhanced Conservation Action

Overall, these programs are ~~integrate~~ crucial in fostering a collective effort to preserve biodiversity.

Resource person :- Abaleen Rahman :-

1. Introduction :- welcome and Introduction to the plantation programme organised by Eco-club.

Emphasize the importance of tree plantation in combating climate change and promoting biodiversity.

2. Importance of tree plantation :- Discuss the role of trees in Carbon Sequestration, air purification and Soil Conservation.

3. Objective of the plantation programme :-

Outline specific goals such as increasing green cover in the area, restoring degraded landscape and fostering environmental Stewardship among participants.

4. Planting Techniques :-

Demonstrate proper planting techniques such as digging appropriately sized holes, handling tree roots with care and backfilling soil to avoid air pockets.

5. Care and Maintenance :- Stress the importance of watering newly planted trees regularly, & especially during dry periods.

6. Long term Monitoring and Engagement :-

Highlight the need for ongoing monitoring of planted trees to ensure their survival and growth.

Co-ordinator

6. Encourage participants to stay engaged with the Eco-club and continue supporting Environmental initiatives beyond the plantation programme.

7. Site selection and preparation :-

Discuss factors to consider when selecting planting sites including sunlight, soil quality and water availability.

8. Conclusion :- Summarize key points and express gratitude to participants for their involvement in the plantation program. Inspire attendees to become ambassadors for environmental conservation in their communities.

9. Q & A session :-

open the floor for questions, allowing the participants to seek clarification or share their thoughts and experiences related to the tree plantation.

Remember to adapt the content and delivery of the lecture to suit the audience and context of the plantation program.

discussion ~~the~~ on the topic of
Control Environmental pollution in the
Awareness programme at Naderonul.

An awareness program on environmental
pollution can cover a wide range of topics
and activities to educate participants
on the causes, effects and solution of
pollution.

Objectives: i) Educate participants about
different types of pollution (air, water
soil, noise, plastic etc).

ii) Highlights the adverse effects of
pollution on health, wildlife and the
environment.

iii) Promote Sustainable Practices to
reduce pollution.

iv) Encourage Community involvement
in environmental protection efforts.

Presentation on types of pollution.

i) Air pollution ii) water pollution iii)
Soil pollution iv) Noise pollution v)
Plastic pollution.

Impact of Control of Environmental
pollution (1) Public Health.

Controlling environmental pollution has
numerous positive impacts across
various dimensions, including public
health, Ecosystems, the economy and
overall quality of life. Here are
some key impacts

- i) improved water quality
- ii) Decreased Exposure to Toxins.

② Ecosystem.

- i) Biodiversity preservation
- ii) Soil quality improvement.
- iii) Aquatic life protection

③ Economic Benefits.

- i). Health Cost Savings
- ii) increased Agricultural Productivity
- iii) Tourism Boost.

④ quality of life.

- (a) Enhanced Recreational opportunities
- (b) improved living conditions.

⑤ Climate change Mitigation

- (a) Reduction of Greenhouse Gases.
- (b) Adaptation Support.

⑥ Sustainable Development.

- (a) Resource Conservation.
- (b) Innovation of Green Technology.

Conclusion :- The control of environmental pollution is crucial for fostering a sustainable and healthy planet. The benefits extend beyond immediate improvements in air and water quality touching on economic stability, public health, biodiversity and climate resilience, implementing effective pollution control measures is essential for ensuring a better quality of life for present

An Awareness Programme on Diabetes and High Blood Pressure was organised by Health Cell and IQAC Khampetia College on 09/02/2019 at Bologomh village. The Programme was chaired by A. Hannan, Prof. Khampetia College. The Chairperson described the various causes of Diabetes and High Blood Pressure and advised the people to be aware of it. He requested the participants not to use harmful foods which cause Diabetes and High Blood Pressure. In this Prof. Jafar Ahmed also spoke on the occasion. At last the Convener of Health Centre expressed his satisfaction to the people for making the event a grand success.

A Brief Report

Date:	
Page No:	
Kharupetra College Estb - 1981 DARRANG	

An Awareness Programme on the topic - "Anti social Activities and the youth" is organized by Extension Education Cell, in collaboration with IGAE Kharupetra College on 7/3/19, in the village of Niz Kharupetra, Darrang (Assam). The Resource Person of the meeting was Abdul Rahman, HOD, Mathematics, Kharupetra College. He delivered a speech on anti social activities and how to stop them. He focused on the negative and harmful activities of the society. He also suggested the young generation to avoid all harmful goods and eatable things. The villagers listened to him attentively and promise to follow his advice. One also expected such more programmes in their village from time to time. Everyone praised the programme.

A Report on use of Mobile phone and its evil effects in the society.

An Awareness programme is organized by Extension Education Cell on the topic on use of Mobile phone and its evil effects in the society on 27/04/2019 in the village of Niz Khariyapeta with the Chairperson & Fakir Humair Choudhary. He delivered notable speech on negative aspects of mobile phone. He pointed out that underage boys and girls are more addicted to use of mobile phone, which is not a good sign for the society. He suggested the parents to take immediate steps and control their children and motivate them towards the right directions. Some of the villagers also gave their valuable suggestions and promised to take immediate steps. Parents. Community. the. Program
